

# Condenser

The HONIRON Barometric Counter Current Condenser for evaporators and vacuum pans has been proven in hundreds of trouble free installations throughout the world. Honiron can also be made available in the Rain Tray Type and the Spray Nozzle Type.

#### Advantages of the HONIRON Condenser:

- Efficient use of injection water
- Operates economically over a wide range of vapor loads
- Low pressure drop through the condenser
- Virtually non-clogging design
- Self contained gas removal equipment
- Extremely wide turn down range

| SIZE | VAPOR INLET | WATER INLET | WATER OUTLET | AIR OUTLET | HEIGHT   |
|------|-------------|-------------|--------------|------------|----------|
| 36"  | 26"         | 8"          | 10"          | 6"         | 12' - 6" |
| 48"  | 42"         | 8"          | 12"          | 6"         | 15' - 9" |
| 84"  | 54"         | 16"         | 18"          | 8"         | 22' - 7" |
| 96"  | 64"         | 18"         | 20"          | 10"        | 25' - 6" |
| 136" | 100"        | 24"         | 30"          | 10"        | 36' - 2" |
