

Juice Heater

The HONIRON Juice Heater is the result of many years of experience and successful design.

Advantages of the HONIRON Juice Heater:

- Can be furnished in a wide range of capacities and in virtually any combination of tube and pass arrangement
- Steam baffling arrangement allows sustained steam flow and excellent scavenging of non-condensable gases
- Deep juice chambers keep reversal friction at a minimum
- Davit arms facilitate the opening and closing of heavy cover doors
- Available in both horizontal and vertical arrangements

HEATING SURFACE SQ. FT.	DIAMETER
1500	48" (4')
2500	60" (5')
3000	72" (6')
4000	84" (7')
5000	96" (8')

- NOTE: HONIRON provides juice heaters in any size and capacity to meet the customers need.
- NOTE: This information is provided for illustrative purposes only and HONIRON reserves the right to change any and data at its discretion.
