

# Werkspoor Rapid Crystallizer

HONIRON manufactures the Werkspoor Rapid Crystallizer. This fixed cooling element design with true counter-current cooling provides optimum heat exchange capability.

It has proven highly successful in the continuous cooling of high-grade and first refined massecuites as well as low grade massecuites.

The advantages of the Werkspoor Continuous Crystallizer:

- High sugar yield per strike
- Better sugar quality
- Increased processing capacity
- Lower sugar loses in final molasses
- Limited space requirements
- Adaptable to fully automatic control

CAPACITY CU.FT./HR.	I.D.	INSIDE LENGTH	N° ELEMENTS	N° ROTORS	COOLING WATER GPM
150	9' - 10"	26' - 0"	37	38	13
175	9' - 10"	21' - 0"	29	30	32
200	9' - 0"	19' - 6"	27	28	62
240	9' - 10"	35' - 0"	51	52	32
