

GLOBAL MANUFACTURING SOLUTIONS PROVIDER OF INDUSTRIAL PROCESS EQUIPMENT

ABOUT HONIRON MANUFACTURING

Beginning its operations in Hawaii in 1852, Honiron Manufacturing is known worldwide for its sugar process equipment expertise having participated in the construction of over 200 sugarcane mills, beet factories, refineries, and alcohol distilleries. Initially focused on the sugar industry, Honiron Manufacturing's experience and qualifications quickly progressed into other industries, including oil & gas, petrochemical, LNG, carbon black, and food processing. Today, Honiron Manufacturing fabrication capabilities are virtually limitless. Combining leading technical and operational expertise, single-source capabilities and proven processes, we help clients achieve superior operational safety, reliability and cost efficiency.

From OEMs specialized fabrication services, machining capabilities to delivery needs, our team of engineers and highly trained technicians meet our client's operational challenges with confidence and trust.

CAPABILITIES

- Heavy metal & custom fabrication services
- Sugar processing equipment & consulting
- CNC machining & milling services
- Engineering and design
- Project management
- Inspection & testing
- Field services
- Procurement
- Replacement parts, service & repair

WHY CHOOSE US?

- State-of-the-art 79,000 SF facility
- Over 165 years of experience
- Superior quality control and safety
- ASME "U" and "S" stamps and NBIC "R" stamp
- Turnkey logistics support
- NDE capabilities
- ANSI, ASME, AWS and ASTM standards
- Located in the Gulf Coast region
