

PROCESSING EXPERTS
INDUSTRY LEADING RELIABILITY

SUGAR PROCESSING EQUIPMENT & SERVICES

Since 1852, Honiron has been a world leading manufacturer of sugar processing equipment. Our knowledge and expertise has been integral to the design, engineering, and construction of over 200 sugarcane mills, beet factories, refineries, and alcohol distilleries. With our comprehensive line of products and services, we help sugar operators worldwide meet today's operational challenges.

As sugar processing experts, we manufacture a wide range of sugar processing equipment that achieves superior performance, quality, industry-leading reliability and delivery. With our state-of-the-art 79,000 SF fabrication facility, ASME coded shop, talented team of registered engineers, and technical support personnel, we are committed to serving as your trusted partner. From concept to construction and operation to optimization, we provide integrated solutions to drive projects to completion - safely, efficiently, and cost-effectively.

SERVICES

- Engineering & Design
- Procurement Services
- Installation Services
- Sugar Consultation
- Quality Control

SUGAR PROCESS EQUIPMENT

- Evaporators
- Continuous Vacuum Pans
- Batch Vacuum
- Tube Sheets
- Condensers
- Juice Heaters
- Circulators
- Crystallizers
