

BOILER, FIRED & NON-FIRED EQUIPMENT SERVICES 24/7 REPAIR & MAINTENANCE EXPERTS

BOILER, FIRED & NON-FIRED EQUIPMENT SERVICES

Boiler, fired & non-fired equipment is an integral part of the industrial process. Expensive and highly specialized, commercial equipment must be correctly specified, maintained, and inspected. At Honiron Manufacturing, we offer cradle to grave services for all kinds of boiler and fired equipment. We bring decades of experience providing safe, reliable and cost effective solution to the sugar, petrochemical, refineries, pulp and paper, and food manufacturing industries.

We understand the challenges faced by plant owners, operators, maintenance personnel and management. Our flexible solutions focus on maximizing your return on investment and minimizing operational downtime. From repair and refurbishment to rebuild and emergency call-out services, our technical professionals are experts in the fired equipment industry, backed with solid years of on-site experience.
